

PRESS RELEASE

Announcement of Acquisition

Momentum ECM, LLC
Mechanicsburg, PA 17055

October 1, 2019

Momentum has entered into a definitive agreement under which Momentum ECM, LLC has acquired Continental Imaging & Technology, LLC. Terms of the transaction were not disclosed.

The addition of 71 clients has added to Momentum's growing client base, with the opportunity to continue proving the value of their unique approach – annual Business Process Reviews included in the client's LSAP fees, thereby leveraging a Best Practices approach to building the most efficient business for their clients.

“Momentum continues to seek out other well-run businesses with similar products, services, and customers – and found that Continental IT was a perfect match. Both companies share a common philosophy and similar platform – to provide customers with business transforming processes using the unparalleled Laserfiche software platform.” CEO, Tom Hogue

“Having built Continental IT's Laserfiche business over the last 20 years, we felt a personal obligation to find the best home for the continued success of our clients. As it became time for my other partners to retire, we began a year-long search to find the ideal company to meet & exceed our customers needs. Momentum was the end result of that extensive process and joining their team as the Customer Success Consultant for the Northeast Region was excellent way to continue bringing value to both Continental IT and Momentum's clientele.” CSCNR, J. Patrick McNickle

“We are very excited about this recent news, and have been working diligently behind the scenes to plan a smooth transition for our newest Laserfiche family members. Our team will continue to work to earn the same loyalty that Continental IT has earned over the years. We are proud to have these new Momentum customers and look forward to being their partner for years to come.” Operations Manager, Corey Robert
